COMMERCIAL INTELLIGENCE.

THURSDAY EVENING, FEB. 12.

It required something of an extraordinary character to increase the dulness apparent in the foreign trade of the port for some time past, and that influence has been found this week in the unfortunate course of events in the Soudan leading up to the despatch of a contingent of Indian troops hence to Suakim. Some few of our smaller local industries may receive a fillip from the demand for Commissariat stores and so forth, but on our more important branches of trade the effect, for a time at least, is bound to be of an adverse character. Coal has of course at once advanced in value, to the disadvantage of our local Mills, already doing badly enough owing to high priced Cotton and bad markets for Goods and Yarns, but it is through the advance in Freights business will be most affected. Tonnage for early loading was already in light supply, but the dulness in exports would have prevented this being felt under ordinary circumstances, in fact, rates had quietened down to a general level of 25s. per ton. The steamers required for the expedition, however few though they are, have been sufficient to create rather a scarcity for some destinations, and 30s. is now asked for Liverpool and the leading Continental ports. This level no doubt will soon attract tonnage both from home and neighbouring ports, but in the meantime our trade in exports, more especially in Wheat, will be seriously checked. Supplies of the article have been unusually free for some weeks past and rupee prices were rapidly coming down to a level at which, with low Freights, exports would have been promoted, notwithstanding the dull accounts from home. Such a rate as 30s. now-a-days though is simply prohibitive and large stocks will have to be kept back up-country in the face of a heavy crop of new Wheat to follow, until the relative conditions undergo a material change. Seeds will be similarly affected, although to a smaller extent, and even Cotton will feel the additional check in some slight degree so that the outlook for exports in the more immediate future is the reverse of hopeful. Nor do imports stand in much better case. With the one exception of Coals already mentioned, imported articles meet a very slow demand, and supplies are generally ahead of our present wants. Money is still very easy for the time of year, and Exchange on London tends downward, but the Egyptian news has depressed Government Paper, and Spinning Mill shares have undergone a further decline owing to the adverse state of the market for local-made Goods and Yarns.

MONEY.—The last Bank of Bombay return showed no movement worthy of notice, and the official minimum rate of discount still remains at 5 per cent., although outside 4 per cent. would be the quotation for demand loans against Government Paper. In the open market there is perhaps a shade more enquiry for accommodation, but the position contains no indication of high rates now that Calcutta shows signs of ease. The Bank of Bengal Cash Balance is reported by wire to-day as up nearly half a crore.

EXCHANGE.—Owing to weaker advices from Calcutta rates for Bank Bills declined 1-16d. the day last steamer left, and for this mail we accordingly opened at 1s. 7 1-16d. for demand Bank Bills, and 1s. 7⅞d. for 3 months' Credits. On Saturday, however, with a fall of 1-16d. per oz. in Bar Silver, rates receded 1-32d. The movement was repeated on Monday and again on Tuesday, but yesterday after giving way 1-32d. for a time we closed without change. To-day, with advice of Rs. 29,20,000 in Council drafts having been placed at 1s. 6 15-16d., and 14 lakhs of telegraphic transfers at 1s. 7d., there seemed a prospect of a further fall at one interval, but Calcutta coming weak brought out some of the Banks as buyers at a reduction of 1-32d., and at the close therefore the following are current quotations :—

Bank Bills on demand	1s. 7d.	per rupee.
Do. Telegraphic	1s. 6 15-16d.	"
Do. Three months' sight	1s. 7 3-32d.	"
Credits, do. do.	1s. 7¼d.	"
rances, do. do.	2⁰⁴¼	"

At this level the tone must be called weak, as the Banks are buyers at the ready rate for delivery all this month, and up to May at an advance of 1-32d. per rupee per month. The decline has naturally brought out a few bills, and there has been more done within the past few days than for some time back; still the selling has very little of a speculative character in it, the general opinion being against any permanent advance in the value of the rupee.

On China 60 days' sight marcantile bills are at Rs. 218 per 100 dollars.

On Calcutta demand drafts are 1-16 per cent. premium, 60 days' sight 1 per cent. discount.

GOVERNMENT PAPER.—The news of the capture of Khartoum by the Mahdi reached us last mail-day, and the adverse feeling which resulted depressed the market so that rates for a time were quite nominal. On Saturday Forts opened at Rs. 97⅞ for cash and Rs. 97⅞ for future delivery, but since then the tone of the market has been weak throughout, and under the influence of willing speculative selling the quotation has declined to Rs. 97 cash and Rs. 96½ to ⅝ for delivery on 15th March. Fours-and-a-half are quite nominal at Rs. 99½.

SHARES.—A very depressed feeling which has gained ground daily has characterised the market this week, and with very few exceptions our quotations show a general fall. *Spinning and Weaving Mills* find numerous sellers but few buyers, and the decline in them has been both important and general. At the existing level of prices for the raw and manufactured article even the best managed concerns carrying no exceptional weight in the shape of commission find it close work to make both ends meet, while those Mills which are burthened with heavy agency charges on weight out-turn are mostly losing money, and must go on doing so, until affairs in China take a peaceful turn. The fluctuation since last mail left have resulted in a fall of Rs. 55 in Manockjee Petit and Alliance, Rs. 50 in Jewraz Balloo, Rs. 45 in Framjee Petit and Great Eastern, Rs. 32½ in Dhurrumsey, Rs. 30 in Bombay United and Sholapore, Rs. 25 in Ahmedabad, Gordon, Morarjee Goculdas, Oriental, and Soonderdas, Rs. 20 in Victoria, Rs. 15 in Empress, Golam Baba, and Khutao Muckonjee, Rs. 10 in Coorla, Hindustan, Parell, Prince of Wales, and Western India, Rs. 7½ in People of India and Rs. 4 in Anglo Indian. Even at the reduced rates quoted there are no buyers, the only business doing being amongst the brokers in the shape of Satta. *Press Companies* are all quiet owing to the limited business doing in Cotton. Mofussils have declined Rs. 22½ to Rs. 370, Volkarts Rs. 20, East India Rs. 15, Prince of Wales Rs. 5 per share. In *Banks* the only change to notice is in Bank of Bombays which have advanced to Rs. 756½. In the *Miscellaneous* list, Bombay-Burmah Trading are Rs. 25 lower in old, Rs. 15 per share in new. Port Cannings are Rs. 12½ higher. Flour Mills are all firm, at previous quotations.

IMPORTS.

PIECE-GOODS have ruled very dull throughout the week, and the business done has been decidedly limited in character. From the bazaar the clearances have been under the average in most descriptions, whilst in the shape of new business the importing houses have been getting very few orders. Dealers to induce business have in many cases reduced their prices one anna per piece, but in the existing lethargic state of trade it is less a question of price than actual absence of demand which restricts operations, and as stocks are liberal, we fear no immediate improvement in the position is likely. The reduced scale of importers' home purchases, however, must tell some time, and the present depression may in reality afford a basis of after steadiness.

TWIST.—For imported Yarns we should call the market weaker in tone, and the business of the week has been very small. In local Spinnings things are also rather in favor of lower values, although there has been more buying for China.

METALS.—*Copper* is rather firmer with an advance of As. 4 per cwt. in Braziers. The demand though is not very active. In *Yellow Metal* we have also to quote an improvement of As. 8 per cwt., but as in Copper the rise is more due to home influences and weak exchange than anything in the shape of a larger enquiry here. *Iron* is firm, but unaltered in value.

COALS.—The Egyptian advices at once gave rise to anticipations of an expedition having to be despatched from here, and an active enquiry set in for Coals near at hand. A considerable business resulted at an advance of about As. 8 per ton, Davison's West Hartley in harbour and close to having been sold at Rs. 16½ and Cardiff at Rs. 16 to Rs. 17 per ton alongside. For distant shipment, however, buyers do not advance their offers materially, February-March shipment of Davison's and Cardiff being offered at Rs. 16 without finding buyers.

EXPORTS.

COTTON.—The position has in no way altered during the past week. Home advices by wire continue devoid of any incitement to activity, whilst limited arrivals here deter sellers from pressing their Cotton on the market at any decline. The result is that prices remain without quotable alteration, and business for export is confined to transactions in ready Cotton to meet current requirements. How long this state of things is to continue it is difficult to say. A month hence we ought to see arrivals on a sufficient scale to make business imperative, still that has been the belief all along, and few people a month ago would have credited the possibility of the deadlock being maintained up to this point, so that March may prove comparitively as disappointing as February.

The *receipts* do not increase materially, and since the beginning of the year show a deficiency of close upon 80,000 bales as compared with last season. According to some people this will be made up by a rush of Cotton during April and May, but the Government estimate of the crop published a few days ago does not favor this view by any means, and unless we have a smart rise in prices to attract supplies, our own estimate of the season's shipments would be about 150,000 bales under last.

The movements of Cotton to date show the following comparisons with the two previous years :—

Receipts.	1885.	1884.	1883.
For the week	28,522	32,551	47,326
Since 1st January	1,36,832	2,14,370	2,26,940
Clearances to Great Britain and Continent.			
For the week	15,944	5,703	24,220
Since 1st January	73,501	1,36,018	1,45,474
Clearances to Calcutta, China, &c.			
For the week	1,078	447	2,089
Since 1st January	5,375	11,200	8,342

The following are to-day's quotations for Cotton (full-pressed) with the equivalents in Sterling, Cost and Freight to Liverpool via Canal, without Commission :—

		Per Candy.	per lb. C. & F.
Bengal Fine	Ready	Rs. 190 =	4 15-32d.

Do. Fully Good,	do.	" 202 =	4 15-16d.
Do. Good	do.	" 197 =	4 13-16d.

WHEAT.—The arrivals from the districts although on the decrease are still very large for this period of the season, and as the export demand owing to adverse market advices from home coupled with higher freights has contracted to the most limited compass, prices have given way again As. 8 to Re. 1 per candy. The following are current rates, at which, however, there is nothing doing :—No. 1 White Pessy Rs. 22½, Khabri Rs. 21, Laskari Rs. 19, Khatha Rs. 17 per candy.

SEEDS.—*Linseed* is dull at Rs. 6 per cwt. for Old crop ready, Rs. 5-10½ for New, May delivery. Almost no business is reported however. *Rapeseed* is also dull at Rs. 6-8 for Old Yellow Guzerat on the spot, Rs. 6-7 for New April delivery. *Gingelly* is arriving very freely, and keeps comparatively firm in value at Rs. 37 to Rs. 39 per candy, according to quality.

The comparative imports of Wheat and Seeds are as follows :—

GENERAL EARLE'S COLUMN.

ENEMY'S POSITION STORMED BY THE BRITISH.

DEATH OF GENERAL EARLE.

CAIRO, FEB. 11.

The force under General Earle attacked the enemy at Kevbekan on Tuesday last, and after five hours' severe fighting, took by storm the enemy's position, which was strongly fortified.

General Earle fell whilst leading the attack, and Colonel Brackenbury, the Chief of the Staff, assumed the command.

The enemy's camp was captured by the cavalry.

LATER.

A telegram has been received from Lord Wolseley stating that the battle between General Earle's force and the enemy on Tuesday last took place opposite Dulka Island, seventy miles above Merawi. Our men attacked the enemy both in flank and front, and very few of the rebels escaped. Lord Wolseley says he expects the victory will open the way to Berber without any more fighting.

General Earle, Colonels Eyre, and Coveny, and eight men were killed, and Col. Wauchope, Capt. Horsburgh, and Lieutenants Colborne and Kennedy were severely wounded. 38 men were also wounded.

Colonel Brackenbury is continuing the advance to Berber.

The number of the enemy engaged in the battle is estimated at 1,500.

HIS EXCELLENCY THE GOVERNOR OF BOMBAY will arrive at Boree-bunder railway station at 8-45 a.m. to-morrow from Calcutta. His Excellency is pleased to dispense with the attendance of a guard of honour and the heads of departments. A salute of seventeen guns will be fired from the Saluting Battery to announce the arrival of His Excellency.

IN the suit brought by his son against Sir Mungaldas Nathoobhoy, the evidence taken on commission in Bhownuggur, Sihor, and Mowva was yesterday read by counsel for the defendant. Every one of the witnesses affirm that according to the custom of the Gujerati Bania castes, a son was not entitled to his share of ancestral property during his father's lifetime and against his wish. None of them could tell what the Hindu Shastras said upon the matter; but a Vakil of Sihor, while upholding the custom, said that it was contrary to the Shastra. Only a few of the deponents were in favour of allowing even maintenance to the son, if he were turned out of the house by his father for no just cause, or had to leave the house in consequence of ill-treatment from a step-mother. The evidence is not yet finished.

AT the High Court yesterday, a motion with reference to a charge of illegal detention of goods by the police, came on for argument before Mr. Justice Scott. It appears that one Bardhar Jaikeprasad, residing at Delhi, made consignments of wheat and seeds to a Mahomedan named Oomer Hajee Suleiman in Bombay. Oomer deposited the goods with two shroffs named Tribhovandas Vanilal and Vundravandas Purshumdas, who used to make him large advances, recovering their loans with interest out of the proceeds of the sale of those goods. About the close of the last year the man at Delhi appeared to have quarrelled with Oomer, and representing himself as an unpaid vendor of goods, instituted criminal proceedings against Oomer, and at the same time obtained a warrant from Mr. George Smith, the Deputy Commissioner at Delhi, for the attachment by seizure of the goods consigned to him. The warrant was endorsed here in the name of Mr. Gell, the Deputy Commissioner of Police, and the police officers, accompanied by an agent, sent down by Bardhar, went to the godown of the Hindu shroffs, and in spite of their protests that sufficient advances had been made upon the goods, seized 286 bags of seeds Mr Jardine, who had obtained on a former occasion a rule *nisi* and an interim injunction restraining the defendants from sending the goods to Delhi, appeared yesterday morning in support of the rule being made absolute. He urged that the warrant issued in the case did not at all fulfil the requirements of the law, and was in fact "a bogus warrant and a sham," and that Mr. Gell, or the subordinate who put his signature for him at the back of the document, should have at once seen that it could not be enforced. The Hon. Mr. Latham, Advocate-General, who appeared to show cause against the rule, admitted that the warrant was not a good one, but said that a second warrant had subsequently been issued in proper form, and that the police were bound to enforce it. His lordship held that the first warrant being on the face of it clearly irregular, the police would have acted with more discretion if they had referred it back to the court at Delhi. But another was afterwards issued, under which the police were justified in taking action, and the goods must consequently be now held to be rightly attached. But before the bags could be removed to Delhi the sanction of the magistrate of police in Bombay must be obtained, and his lordship observed that this sanction would be withheld by that officer if good cause were shown against the removal of the goods. The injunction was accordingly withdrawn, and the rule discharged.

THE *Government Gazette* notifies that Surgeon-Major H. J. Blanc, physician in charge of the European General Hospital, Bombay, has been allowed furlough to Europe for twelve months. During Dr. Blanc's absence Surgeon-Major Hojel acts as physician to the European General Hospital; Surgeon-Major Waters as second physician; Surgeon R. MR. W. B. MULOCK, who is now acting as Collector of Surat, has been appointed President of the District Local Board.

SURGEON K. N. NARIMAN has been appointed to act as Civil Surgeon, Broach, during the absence of Surgeon-Major Keith; and Surgeon Anderson acts for Surgeon Nariman as Civil Surgeon of Godra.

MAJOR GREIG delivered over charge of the office of Cantonment Magistrate, Ahmednuggur, to Captain F. Abbot on the 31st ult., and Mr. J. F. Fernandes delivered over charge of the office of Cantonment Magistrate of Ahmedabad to Major J. M. Madden on the 2nd inst.

A CORRESPONDENT writes from Aurungabad under date February 7:—"The Bishop of Bombay, Mrs. Mylne, and the Rev. A. G. Cane arrived here to-day, when they went to Rosa, and visited the famous Rock Temples of Ellora. They returned here on the 11th, and proceeded to Nuggur. The community are expected to hear the Bishop preach in Holy Trinity Church. We were greatly disappointed, as it is not often we see so high a dignitary."

GENERAL SIR J. GOUGH, K.C.B., and Captain Garrett, A. A. G., arrived at Aurungabad from Ajanta on the 11th instant, and will remain there for a few days.

MR. LESLIE SAUNDERS, Commissioner of Ajmere, will probably act as Commissioner of the Berars during Mr. Henvey's absence.

THE following is the official summary of the Bombay Presidency season reports for the week ending the 10th inst.:—"Rabi harvest in progress in parts of Ahmednuggur, Sholapore, Belgaum, and Kaladgi. Standing crops injured by frost in parts of Hyderabad, by mildew in parts of Nasik, by rust and blight in parts of Shikarpore, and by insects in parts of Poona and Rutnagherry. Scarcity of fodder and drinking water continues in several talukas of the Souther nMahratta Country districts. Cholera in parts of six districts, small-pox and cattle-disease in parts of ten, and fever in parts of thirteen districts."

THOUGH the price of Indian tea has gradually declined during the last five or six years, it is gratifying to find that at home the demand for it is rapidly increasing. Last year the total deliveries of Indian tea for home consumption amounted to 5,351,000 lbs. Messrs. Gow and Wilson, the Indian tea brokers in London, consider the prospects of Indian tea in the market in June next as likely to show an improvement, the price of tea at the beginning of the year being at the lowest level yet reached. It is expected that there will also be an increase in the deliveries. They consider that the stock will not be much larger at the end of June, 1885, than it was in June last. It is stated that the trade generally are complaining of the gradual but marked deterioration every year in the quality of Indian tea.

IT is now some time since Lord Dufferin declared the Sakarbai Hospital for Animals open, but to the surprise of many it has not yet been put into working order. The reason now appears to be that the Committee of the Society for the Prevention of Cruelty to Animals have only been waiting all this while to commence operations for the Government to open the Veterinary College attached to the hospital. In the meanwhile the Collector of Bombay has made his demand in respect of the annual assessment, which in this instance amounts to some Rs. 1,500. The building on the land is to be used for charitable purposes, the Society drew the attention of the Government to the case. As expected, the answer has been favourable, and a Government Resolution has been issued exempting the Society's land at Parel from assessment.

THE *Madras Times* says that, under telegraphic instructions received from Army Head-quarters, Major Evelyn S. Skinner, Deputy Judge Advocate-General, Presidency Circle, will leave Madras to assume charge of the duties of the Hyderabad Contingent and Subsidiary Force appertaining to the Judge Advocate-General's Department. Major Skinner's appointment to the Secunderabad Command carries with it an increase of Rs. 300 staff pay in addition to his pay proper, viz., regimental pay plus Staff Corps allowance of Rs. 500. Pending the arrival of Major Skinner's successor, the duties of the Presidency Circle will be carried on by the Acting Deputy Assistant Adjutant-General of the Eastern District, Colonel R.E. Walters, in addition to his multifarious duties of officer commanding the garrison and Brigade Major. Major Skinner will relieve Major W. Hughes Hallett at Secunderabad, who has been transferred to the Mysore Division on medical grounds. Major Hallett, in turn, will relieve Colonel G. Briggs at Bangalore, ordered home on emergent furlough owing to ill-health. Major Chaplin, of the British Burmah Division, will arrive at Madras on the 16th instant per s. s. Tenasserim. This officer will remain at Madras for a fortnight and conduct the duties of the Presidency Circle till the arrival of Major Shepherd, who has been appointed to Madras till Major Chaplin's return from furlough.

THE Telegraph Department has grievances of long standing. More than twelve years ago attempts were unsuccessafly made to bring those grievances to the notice of the Secretary of State for India. The memorial, however, never reached its destination, but fell into the hands of the Director-General, who paternally advised the memorialists that it would be "early enough to ask for relief from your grievances when you can, from the experience of ten years, prove them to exist." This advice they have followed, and after chewing the cud of bitter reflection upon their hardships for more than a decade are surely justified in once more claiming redress. The evil complained of is so patent that it can be explained in a very few words. In 1868 there were 65 Assistant Superintendents and 23 vacancies. In the next four years 72 additional Assistant Superintendents were appointed in England, without increasing the number of higher appointments. Promotion has been consequently almost at a standstill ever since. The original 65 were appointed at an exceptionally early age, many of them as young as 14 or 15, and, as Superintendents in the prime of life, they leave vacancies at the rate of one per year; so that the last of those sent out from England in 1868 may calculate upon promotion soon after the middle of the next century! The grievance is further aggravated by the facts that the latter were originally appointed at an older age than those holding higher appointments: that the educational qualifications insisted upon in their case were of a higher grade: that they were misled by the Circular of the India Office which induced them to apply for appointments: that they have waited, as advised, for more than ten years without benefit: and that the new Pension Rules just issued only add insult to their injuries. The State, says the Allahabad paper, should see that lives spent in her service are not wasted; and her duty in this instance is the more imperative from the uncomplaining silence with which the Telegraph Department have been content so long to suffer.

Railway line about thirty yards beyond the level-crossing at the Dharavi-road. He fell down, by the up local train and killed on the spot. A verdict of accidental death was recorded.

BIRTHS AND DEATHS IN BOMBAY.—The total number of deaths registered during the week ended on Tuesday, 10th Feb., was 431, being 15 less than in the previous week, 19 more than the week ending 12th Feb., 1884, and 29 less than the mean of the corresponding week in the preceding five years. During the week 279 births were reported in the different districts of the city. The rate of mortality per 1,000 of population per annum was 29·06, calated on the increase of population since 1881. There were 100 deaths from accident and fever, 2 less than in the previous week, and 14 more than in the same period last year. The deaths from diseases of the respiratory system, diarrhœa, and dysentery were less than those in the corresponding week compared with 95, 9, and 10 in the same time last year. Nine deaths from cholera were registered last week as compared with 3 in the week previous.

A PAIR OF AUDACIOUS SWINDLERS.

AT the Fort Police Court yesterday, Bagchund Parshotum and Jewa Bhags were charged before Mr. Ryan with cheating one Parwatishankar Jina, and dishonestly inducing him to deliver to them property worth Rs. 1,172-6. Mr. Edgelow appeared for the prosecution, and Mr. Nusserwanjee for the defence. On the 12th of last month the first accused visited the complainant, a silk merchant, at his shop in Sir Mungaldas Nathoobhoy's market and represented himself to be a mehta in the employ of a Memon, whose name he gave as Ismail Moosa. He purchased a large quantity of silk worth Rs. 783-7, and requested that complainant's servant should be allowed to carry the goods to his master's shop at Mandvie, where he would be paid. The goods were sent by a man who had instructions to take the price of the goods. On reaching the shop the goods were delivered the man described as Ismail Moosa showed complainant's servant a hoondee for Rs. 1,500, which he said fell due next day, when he would pay the amount. Next morning accused again appeared at the silk merchant's shop and obtained him to part with another quantity of goods on the same story. The goods were delivered, and payment was promised. When, however, the complainant's man went for the money the shop was found vacant, and then it dawned upon the complainant that he had been tricked by a pair of swindlers. He put the case in the hands of the detectives, and the prisoners, who had absconded, were found, and the whole of the goods traced to Mazwarees with whom they had been pledged. The defence raised was that the whole affair was a common commercial transaction, and that the goods would have been paid for in the usual course. It was the custom among merchants to pay for goods five and even eight days after delivery. His worship, after hearing the arguments of Mr. Nusserwanjee, convicted the accused. No. 1 admitted two previous convictions, and was sentenced to two years, and No. 2 to eighteen months' rigorous imprisonment.

ATTEMPT TO CHEAT GOVERNMENT.

LIEUT. COL. SARTORIUS appeared yesterday at the Fort Police Court and charged a woman named Ganee, before Mr. Cooper, with attempting to cheat the Government.

Mr. Little, solicitor, appeared in support of the charge.

Col. Sartorious said that on the 2nd December, 1883, one Babnac Sapnac, who had been a private in the Marine Battalion, had died at Bushire. On the 19th of last month a committee consisting of himself, as president, Captain Simpson, Lieut. Brown, and two native officers, were appointed to inquire into any claims which the relatives of the deceased might put forth for a family pension. The deceased then had come forward and represented herself as the mother of the deceased, and gave her age as 40 years, and claimed a pension. The woman's appearance, however, went very much to upset the statement, for she then looked ten years younger. A sepoy in the regiment named Babnac Calnac and a pensioner named Godnac Sarnac, however, swore that the woman was the mother of the deceased. Not being satisfied with this evidence, inquiries were set on foot in the village where the parties had been born, and it was found that Ganee was only the sister of the deceased, and as such, according to the regulations, not entitled to a pension.

The woman said that she had not represented herself as the mother of the deceased private, but that she was his eldest sister, and having brought him up from a child four years of age was generally spoken of as his mother.

The case was adjourned after some evidence had been taken, as the magistrate thought it necessary that the caution in which the accused commenced her claim should be produced. The case was fixed for next Saturday.

ALLEGED DEFAMATION BY A MEDICAL MAN.

YESTERDAY, at the Fort Police Court before Mr. Cooper, Mr. Dhurumsey, of the firm of Messrs Thakordas and Dhurumsey, on behalf of Mr. Burjorjee Sorabjee Shroff, laid an information in which he accused Dr. D. E. Dudley of defamation. In his information Mr. Shroff states that he is a licentiate of medicine and surgery and holds a diploma granted by the University of Bombay; he is also an honorary junior surgeon of the Bombay Charitable Eye and Ear Infirmary and joint honorary surgeon of the Bombay Medical Union. He has a considerable practice among the shipping in the Bombay harbour; and among many other practitioners who visit the ships in harbour is a certain Dr. D. E. Dudley, M. D., America. Dr. Dudley has made several false imputations against informant to the captains of various ships with intent to injure and lower his reputation among them. The imputations are that informant is an unqualified man and holds no diploma from any recognised University. Accused has tried to make the various captains believe that they run great risk in calling in the services of informant. When these circumstances came to the knowledge of the informant, he took steps when he met Dr. Dudley to point out to him his ungentlemanly conduct, and informed him that it was in the hope that he would give up this mode of defaming him that he (informant) abstained from taking legal proceedings against him. Mr. Sorabjee regretted that in his information that the interpreter had with Dr. Dudley did not produce the desired effect. On the 2nd inst., when he happened to be on board the County of Kinross, a vessel which he attended in his professional capacity, Dr. Dudley represented to the master, Captain Stroak, that he was employing an unqualified, undiplomaed, and an unskilful man, and was running a great risk in doing so, and that he, Captain Stroak, would be liable for damages should any of his crew be injured by the unskilful and incompetent treatment of the informant. These imputations were malicious and untrue, and informant charged Dr. Dudley with defamation.

His worship granted a summons against Dr. Dudley.

AN UNLICENSED GRASS MARKET.

ESMAIL HAJEE ESSACK, a grass merchant, appeared yesterday before Mr. Cooper in answer to a summons in which he was charged by the Municipal Commissioner of Bombay with occupying a place for the sale and storage of hay and grass without a license, contrary to section 227 of the Municipal Act. Mr. Crawford appeared in support of the summons, and Mr. Brown for the defendant. Mr. Cooper delivered the following judgment. He said.—The complaint in this case is against the defendant for occupying a place for the storage of hay and grass without a license, contrary to section 227 of the Municipal Act. From the evidence it appears that the defendant is the owner of the place, and permits other persons to use it for the sale of hay and grass. As I decided in a former case, a person who keeps such a market is an occupier of the place within the meaning of the section. It is necessary for the occupying of such a place that the defendant should have a license. It appears doubtful if he has complied with the provisions of the section in applying for a license for the year 1884. In making the application and by the appointment of the measurements of the place to the Muncipal Commissioner, it seems that he only applied personally to one of the officers of the Municipality, who informed him that no license would be granted. It appears also that a notice dated the 24th of November, 1884, was sent to the defendant by the Health Officer of the Municipality, calling his attention to the fact that Abyssinian grass was sold and stored upon his place, and that he had no license, and informing him that no license under any circumstances could or would be granted for the sale or storage of grass at that place as it was a populous one and was surrounded by houses, and in the event of a fire taking place the consequences would be serious, and requesting him to take immediate steps to stop the sale and storage of hay and grass. Mr. Crawford contended that under the section it was incumbent on the Commissioner to show cause before this court for withholding a license. The words of the section "that the Commissioner may grant, withhold, cancel, revoke or suspend such license, showing cause always for such withholding, cancelling, revoking, or suspension." The meaning, I think, to be attached to the words "showing cause" is giving good reason for such withholding or cancelling. There is no express provision made by the Act giving the Chief Presidency Magistrate power to determine whether the reason given by the Commissioner is good or not, or in case of the Chief Magistrate determining the reason given is sufficient, for him to grant a license or to direct the Commissioner to grant one, or directing the Commissioner to obey such orders as the Act certainly does not imply such powers to the Chief Magistrate. The words "showing cause" were no doubt most properly inserted in the section, showing as they do that no arbitrary power was intended to be given to the Commissioner in a matter that might so seriously affect the interests of a private individual. On an application being duly made under the provisions of the section to the Commissioner, it appears to me to be his duty if he withholds a license to give his reasons for so doing; and the question as to whether such reasons are good and sufficient can be questioned only by the High Court under the provisions of the Specific Performance Act of 1877. The fine imposed on accused Rs. 10, with liberty to the Commissioner to proceed against him for a daily penalty if the offence is continued after conviction.

THE BOMBAY TILE COMPANY.

AN extraordinary general meeting of the shareholders of this company was held yesterday afternoon at the office of the company, 19 Churchgate-street, when Mr. Gostling presided.

Resolutions were passed, winding-up the company and appointing the trustees of the debenture-holders, Messrs. F. Little and Furdoonjee Nusserwanjee Banjee, liquidators, as the shareholders could not appoint any one else, as they had no funds for the expenses of the liquidator; empowering the liquidators to sell the immoveable property by public auction or lease it, as they may think fit, particularly the sale and granting the liquidators the powers of liquidators given them by the Indian Companies' Act. A vote of thanks to the chairman concluded the meeting.

BELLARY PRESS COMPANY.

THE annual general meeting of the shareholders of this company was held yesterday at the registered office No. 2, Dalal-street, Fort. Mr. Damodersey Tapidass, the chairman of the company, presided.

The following report of the directors for the year ending the 31st December, 1884, was submitted to the meeting:—From the accounts it will be seen that the net profits earned during the year amount to Rs. 10,974-4-4; this together with the sum of Rs. 136-12-11 brought forward from the last year, makes a total of Rs. 11,111-1-3, which they have decided to apportion as follows:—An interim dividend for the half-year ending 30th June, 1884, paid in August last at the rate of Rs. 7½ per share, amounted to Rs. 4,175; dividend at the rate of Rs. 25 per share for the half-year ending 31st December, 1884, amounts to Rs. 4,175; to reserve fund account Rs. 1,000, to depreciation fund account Rs. 1,700, and the balance Rs. 61-1-3 to be carried to next year's account. The directors have leased for two years the company's presses at an annual rental of Rs. 12,000, to Messrs. Franjee and Co., of Madras, commencing from the 1st May, 1884. The rent to be paid quarterly in advance, and for the due fulfilment of the contract they have taken as security Rs. 5,000 in 4 per cent. Government promissory notes as a deposit. Up to the present time the company's properties were insured by the lessees. This time the lessees have not undertaken this task, and therefore the company's properties are to this moment uninsured, and the directors leave it to you to decide whether the company's properties should be insured or not, and if it is decided to insure, a resolution is to be passed to that effect. The company's property are on the whole in good condition, only the Adoni Press which requires repairs. Resolutions were then unanimously passed, adopting the report, declaring a dividend of Rs. 25 per share payable on the 17th instant, re-electing Mr. Dhanjee Nowjee as a director of the company, appointing Mr. Gangadas Kissordas as auditor of the company for the current year at a remuneration of Rs. 50, and directing that the Bellary Factory be insured for Rs. 37,500.

Holloway's Pills are the medicine most in repute for curing the maladies which accompany the change of weather suddenly giving place to chilly drenching days. In fact, these Pills offer relief even when they do not entirely remove the disturbances of digestion, circulation, and nervous tone which occasionally oppress a vast portion of the population. Under the genial, purifying, and strengthening powers exerted by this excellent medicine the tongue becomes clean, the appetite improves, digestion is quickened, and assimilation is rendered perfect. These Pills possess the highly admirable property of cleansing the stomach and bowels, which, in fact, are the only organs capable of producing an absolute recovery in cases of the body. [ADVT.]

COLONEL SARTORIUS ON THE SOUDAN.

COLONEL SARTORIUS delivered a lecture at the Sassoon Institute on "The Soudan" on Wednesday evening, being the first of a series in course of arrangement.

Mr. Forde, the president of the institute, said that it was customary to introduce the lecturers at meetings of that institution; and, as a matter of form, he would introduce Colonel Sartorius. As they were all aware the lecture of Colonel Sartorius that evening was on a most interesting subject specially at the present time. The lecturer was eminently qualified to speak on the subject from a long residence in the country, and because he possessed a keen observation and had another qualification which ordinary people might be called curiosity but which in him is a thirst for knowledge.

Colonel Sartorius, who was warmly received, remarked that the Soudan lay between the 5° and 20° of latitude, and was, roughly speaking, bounded on the west by the desert and on the east by the Red Sea and the Abyssinian highlands. All this great tract was inhabited by people who were far behind their neighbours in civilization, and yet many of them were the direct descendants, of great nations who in their time had made a great history for themselves. For instance, Shendy was situated close to the ruins of the famous city of Merce, capital of the kingdom of Merce, and the supposed habitation of the Queen of Sheba. Senaar, the ancient seat of the Meroitis, was mentioned by Herodotus, and the gold found in the country incited the soldiers of Psametcus to desert and settle about there, which accounted for the better style of architecture still found in those parts. In the Pyrans there was a very good description of the country; and, curious to say, the problem which had so long puzzled the geographers of Europe appeared to have been well-known to the Hindoos vide the map constructed by Lieutenant Wilford, from the indications given by the Pyrans, for in it the Nile's two great branches—the Blue and White Niles—rose respectively from the equatorial lakes and the mountains of Abyssinia. Still, however, there were few traces of the ancient history left behind; and it was only by ethnological research that they arrived at the conclusion that the Arab races were probably driven into the country about the time that the Jewish invasion of Palestine made considerable commotion there. In the first few centuries. A.D. Christianity made great progress, and in the tenth century Alsa, with its capital Soba, was a great Christian country. They kept the Egyptian customs, and to this day the elaborately dressed hair and sandals exactly represented the fashions pictured on the ancient tombs of Egypt. The Abyssinians are the only people in that part amongst whom traces of the widespread Christianity of old days is now to be found; and the debased style of their religion, their intense superstition and ignorance, accounts for the ease with which the tenets of Islam took root and overpowered the old faith of which nothing was left but the veriest outward forms, and those of the worst kinds. All the indigenous tribes and the Arabs were all inclined to that worst form of superstition, what might be called devil worship, the evil eye, &c., and it was that belief of present act influencing the future in a material way which so strongly inclined them to Islamism, now offering on its promises to throw their lives away in the desperate way they did at the battle of Teb and Tamaneh. The people who now inhabited the Soudan are divided into two distinct branches, of whom the Arab and Negro are the representatives; the former is quite susceptible of civilisation, but the Negro is not. Khartoum, although only a town, deserved special mention, both as the capital of the Soudan proper and also owing to the special interest it has on account of the sad events which have lately occurred there. It is built near the confluence of the Blue and White Niles, and is a regular Egyptian town. It is entered by one large street the only one deserving that name, and the others being mere lanes or open spaces, formed by the clusters of buildings which are irregularly built. The whole was surrounded by a long line of entrenchments which were thrown up by Hicks. On the banks of the river is a sort of inner citadel surrounded by high walls, which contains the Government and public buildings, and it was here that General Gordon lived. The town itself is interspersed with trees, and in the centre are the beautifully laid out gardens of the Roman Catholic missionaries, whose cathedral was founded some years ago by the Austrian Government. The number of the inhabitants is about 50,000, and it has been hitherto the great channel by which European and Indian merchandise entered the regions of Central Africa. The European inhabitants numbered from about 150 to 200. The thermometer during the hot weather was from 90° to 105° and during cold weather 81°

factory. The system of monitors has been introduced, and has improved the discipline of the school very much. The Committee are glad to be able to report that the Society commencing the year with a debit balance of Rs. 894-3-11, closes it with a credit balance of Rs. 2,704-12-6, and that as anticipated the interest of the special subscriptions to the endowment fund raised after Mr. Duthie's death, meets the pension to Mrs. Duthie. The Committee much regret that their application to Government for a contribution to the endowment fund in terms of Lord Canning's well-known minute, which has been acted on repeatedly in the past, has not as yet met with success. Application has been made for a reconsideration of the subject, and the Committee earnestly hope that the same may be favourably received. Besides doing all the making and mending work of the clothes for the boys and girls in the school, new underclothing, etc., has been made for outsiders, by which about Rs. 170 has been earned. Two donations (Rs. 200 and Rs. 100) were received during the year from Mr. Thomson and Mr. Myline of Behsea, and placed to the credit of work and recreation account. The Committee desire to record the obligation they are under to the donors; also to their old friend Mr. Mackenzie for having erected in the play grounds, free of expense to the Orphanage, two giant strides, one for the boys and one for the girls. Through the kindness of several ladies and gentleman, the Committee were enabled to give a concert in the Town Hall on Friday, 30th January, which resulted in the substantial addition of over Rs. 1,300 to the Society's funds. His Excellency Sir James Fergusson and Miss Fergusson and His Excellency Sir Frederick Roberts, were present. The Committee desire to convey their special thanks to Mrs. Morland, Mrs. Adams, Mrs. MacMillan, Miss Schmuck, Mr. Dixon, Mr. Wyer, Herr Schmuck, Mr. Johnstone, and Mr. Mant, for their very valued assistance. The Committee have long been desirous of possessing a bungalow of their own at some hill station, and negociations are now going on which the Committee hope may result in the acquisition of a suitable bungalow. The Committee, while fully appreciating good scholarship, have given special orders that particular attention is to be paid to regular physical exercise in the open air, and have intimated their desire that the girls be brought up as useful and active girls, able to cook food, make clothes, and know something of house-keeping. Stooping over books and sewing in play hours have been forbidden. The Committee would be very glad if an "apprentice fund" could be started. The pay to lads commencing to learn a trade is so small that they are unable to support themselves on it, and there has hitherto been no fund from which the Committee have had it in their power to help these boys. In consequence of this there is a great temptation for lads to commence life when they leave school in some position where they can at once maintain themselves. But the Committee would much prefer to see the stronger boys enter Government or other workshops, and they would be glad if friends would give them a donation as the nucleus of an apprentice fund. The Committee have heard with regret of the death of Mr. Cama, who gave the Orphanage a handsome donation, the interest of which is applied every year to the purchase of prizes for the children. The Committee desire to thank their mofussil colleagues and their many friends in Bombay and up-country for their liberal support during the year. They also desire to express their satisfaction at the management of the school by Mr. and Mrs. Anderson.
